## Web Developer

### About Me

---

I recently graduated with a Bachelor of Science in Information Technology, focusing on Web Development. I really enjoy working on back-end development, where I specialize in creating reliable and efficient systems. My background in electronics, combined with two years of hands-on experience, has deepened my understanding of technology. I'm eager to use my skills in my next job, contributing to important web development projects and coming up with new solutions.

### Objectives

---

Seeking a position in back-end development to apply my Bachelor of Science in Information Technology and hands-on experience. Eager to contribute to innovative projects by designing and implementing reliable and scalable systems in a collaborative environment.
