*HR Manager*

ThinkBIT Solutions  
75A 8th Ave, Cubao, Quezon City,  
1109 Metro Manila

**Dear Ms. Jeanky S. Medez**

I am writing to express my interest in the Web Developer position at ThinkBIT Solutions, as advertised on your company website. With a Bachelor of Science in Information Technology specializing in Web Development and a keen interest in back-end development, I am excited about the opportunity to contribute to your innovative projects and dynamic team.

During my academic journey, I have gained a strong foundation in software development, particularly in designing and implementing robust back-end systems. My hands-on experience in electronics has further enhanced my technical skills and problem-solving abilities, enabling me to approach challenges with a comprehensive understanding of technology.

At ThinkBIT Solutions, I am impressed by your dedication to delivering cutting-edge solutions and fostering a collaborative work environment. I was particularly drawn to your recent project in developing a scalable and secure enterprise-level application for Mother Baby Friendly Philippines. This project showcased your team's expertise in back-end architecture and innovation. The commitment to impactful and technically challenging projects at ThinkBIT aligns perfectly with my skills in back-end development and my passion for continuous learning and innovation.

I am eager to bring my enthusiasm and expertise to your team and contribute to the success of your projects. Enclosed is my resume, which provides additional details about my qualifications.

Thank you for considering my application. I am looking forward to the possibility of discussing how my background, skills, and enthusiasm would be a great fit for ThinkBIT Solutions. I am available at your earliest convenience for an interview and can be reached via email at Jkristine029@gmail.com or phone at 09193057801.

Thank you for your time and consideration.

Warm regards,

**Kristine Joy M. Dacquil**
